

A revolutionary **NEW** gold pan design

from **GARRETT**

14" Gold Trap™

Offset, acentric design delivers improved performance!

14" Gold Trap features:

- Expands the pan's floor size by 33%, as compared to conventional 14" gold pans.
- Maintains the long panning surface and optimum angle necessary for effective panning.
- Patent-pending design.
- Allows gold to be driven down more efficiently to the large floor space.
- Larger pan volume allows more material to be processed per pan.
- Includes Garrett's renowned Gravity Trap® riffles for trapping gold.

"This is a smaller pan that is comfortable to handle all day long, but it gives you the finishing area of a large pan."
—Professional prospector Freddy Dodge
